Project Title: Job Boarding Website

Start Date: Nov 30, 2023   **End Date:** Jan 30, 2023

Budget Information: project aims to develop a job boarding website with a budget of 105,000 ETB. This includes 10,000 for internet connection, 20,000 for design, 50,000 for development and implementation, 19,000 for quality and testing , and 6000 for deployment.

Project Manager: Eden Asamere (Project Leader of the Group)

Project Objective: Connect job seekers and employers and Organise recruitment process

Main Project Success Criteria: In order to achieve success on the this project, the following objectives must be met within the designated time and budget allocations:
- Connect Job Seekers and Employers: Provide a dynamic platform where job seekers can find suitable opportunities and employers can identify potential candidates.
- Organised Recruitment Process: Enhance the recruitment process through intuitive interfaces, streamlined resume submissions, and efficient application tracking.
- User Engagement and Experience: Prioritise user satisfaction by developing an intuitive, responsive, and aesthetically pleasing website.
- Monetization and Revenue Generation: Implement revenue streams through premium job listings, featured profiles, and targeted advertising to ensure sustainability and growth.

Approaches:
- User research to understand user needs: Conduct user research to gain insights into the needs, preferences, and pain points of employers and employees.
- Design thinking for user-centered design: Utilize design thinking principles to create a user-centered job board website that addresses the specific challenges and requirements of users.
- Agile development for flexibility and iterative delivery: Implement agile development methodologies to ensure flexibility, adaptability, and continuous iterative delivery of the job board website.
- Responsive web design for seamless user experience across devices
- Database integration for efficient data management: Integrate a database system to efficiently store and manage job listings, user profiles, and other relevant data, enabling quick search and retrieval of information.

Roles and Responsibilities
